Containment for any application.

Gravity has an extensive inventory of over 5000 portable fluid storage tanks to meet a variety of application.

Our containment experts will work with you to provide the best option for your containment needs, whether it be for maximizing solids control during drilling or hydraulic fracturing operations, or secondary containment for environmental compliance.

Our tanks are cleaned and inspected after each use to ensure their integrity and reliability. Our highly trained containment experts are available 24/7 for your convenience, to manage upcoming or ongoing projects.

Description	Capacity	Dimensions (feet)
Frac Tanks	500 bbl square / 400 bbl upright skid-mounted	8' x 43'
